

Q2 Production Efficiency Report (ID: doc-q2-eff)

1. Executive Summary & Operational Root Cause Analysis

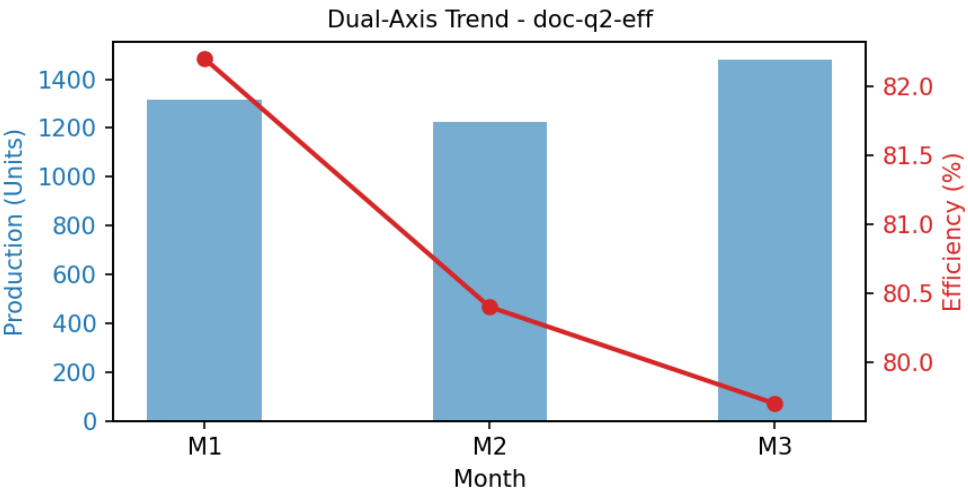

Primary root cause for downtime in Q2 was unexpected hydraulic valve failure in Pump-04 at Facility-1.

2. Production Output & Efficiency Metrics

Metric Line	Baseline	Actual Output*	Efficiency Rate (%)
Line Alpha (Primary)	1200 Metric Tonnes	1450 Metric Tonnes	89.4%
Line Beta (Secondary)	800 Metric Tonnes	942 Metric Tonnes	80.5%
Combined Operational Total	2000 Metric Tonnes	2392 Metric Tonnes	84.9%

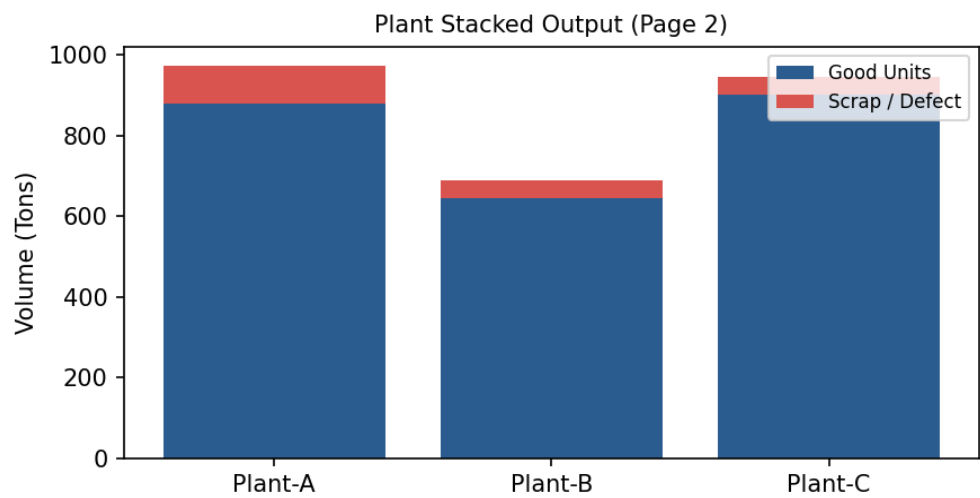

*Footnote 1: Actual output figures measured in Metric Tonnes include 2.5% scrap variance.

3. Dual-Axis Production & Efficiency Trend
